# President's Message

It is an honour to have been chosen to serve as President of the College of Psychologists for the coming year. I would like to welcome our newly elected member of Council, Christine DiZazzo who has taken her seat as the ex-officio Psychological Associate representative. I also look forward to a very productive year working with Dalia Slonim and Janice Currie, who are returning for their second terms in the two Toronto areas, as well as the other professional and public members of Council and the College Committees.

The past year was a very busy one for both staff and Council. Major accomplishments included a rapid and comprehensive response to the report of the Health Professions Regulatory Advisory Council (HPRAC). The College's response to the Minister of Health and Long-Term Care is posted on the College website. In addition, a strategic planning process was undertaken and successfully completed resulting in the development of a new Strategic Plan which is anticipated to take us through 2011. The feedback on the draft Strategic Plan provided by members of the College was very constructive and useful to Council in formulating and approving the final version at the June Council meeting. The Strategic Plan is available on the College website.

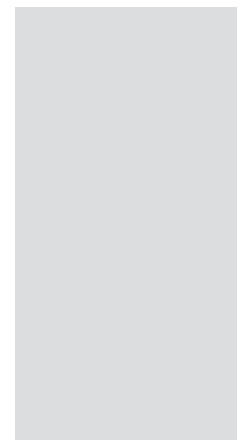

The HPRAC report raised a number of very substantive issues regarding the regulation of health care in Ontario. One issue of considerable importance to the profession of psychology was the regulation of psychotherapists. Many individual members of the College and both professional associations made thoughtful presentations to HPRAC and it seems likely that the profession and the College will be seen as an important resource to the government as it considers legislation this fall.

Ongoing work of a more 'internal' nature includes the implementation of the Strategic Plan as well as a comprehensive review of all College By-laws and policies. From the members' perspective, the most significant and visible change this year will probably be the redesigning of the College website. This work is currently underway and we hope to have it up and running by late fall.

In response to members' requests, we have posted the names of the Council members and the electoral district they represent in "The College Council" section of the current website. I encourage you to contact the Council member for your area with any questions or suggestions.

On behalf of Council, I hope everyone is enjoying a safe and happy summer.

Clarissa Bush, Ph.D., C.Psych.  
President

## Regulation Amendment Updates

Over the past three or four years, the College has been involved in preparing amendments to both the **Registration Regulation** and the **Quality Assurance Regulation** including Bulletin articles and member consultations. The **Registration Regulation** amendments were initiated in order to permit the College to comply with the terms of the Mutual Recognition Agreement (MRA) signed by the Psychology Regulators of all the Canadian jurisdictions. After consultation with the Ministry of Health and Long-Term Care and further review, the Council determined that the Registration Regulation, as it is currently written, will permit the College to meet its obligations under the MRA, without amendment. Therefore, work to amend the Registration Regulation will not proceed at this time and the proposed amendments submitted to the Ministry have been withdrawn.

The proposal to amend the **Quality Assurance Regulation** has been submitted to the Ministry of Health and Long-Term Care. Among other things, the changes to the regulation would permit the Quality Assurance Committee to undertake Peer Assisted Reviews of randomly selected members from subgroups of the membership, e.g., practitioners working with adolescents, those employed by school boards, etc. As well, the regulation changes would more clearly describe the College's continuing education requirements. Full details of the changes can be found in the consultation document published in the Bulletin, vol. 29(3), December 2002 with a further update published more recently in vol. 32(2), December 2005.

The change to the continuing education program will require each member to undertake 100 hours of continuing education every two years. As noted in the December 2005 Bulletin article, this does not mean 100 hours of formal CE credits. Rather, the regulation will specify that members may undertake continuing education, selecting from a variety of formal and informal modes of learning and activities, as best suits their learning needs and styles. Changes to the Quality Assurance Regulation are now still in the proposed stage and further details regarding these will be distributed once the changes receive Ministerial approval.

## Election Results

Elections to Council were held this year in Electoral District 5 (GTA East), Electoral District 6 (GTA West) and for the Psychological Associate ex-officio seat.

The Council welcomes:

Janice Currie, Ph.D., C.Psych., acclaimed in District 5 for second term

Dalia Slonim, Psy.D., C.Psych., acclaimed in District 6 for second term

Christine DiZazzo, M.Ps., C.Psych.Assoc. - elected

In an effort to introduce new members of Council, reproduced below is the Biographical and Candidate Statement submitted by Ms. Christine DiZazzo, as part of the election process.

**Christine DiZazzo, M.Ps. C. Psych.Assoc.  
Psychological Associate: ex-officio**

I have been a Psychological Associate since December 1996. I have an M.A. in Psychology from the University of Ottawa (1975) and have been working in school psychology since that time. This year, I decided to take a risk and in addition to my work with the Ottawa-Carleton District School Board, I have taken a part-time leave in order to open a private practice. This has been an exciting and eye-opening experience. I daresay that most people practicing in public institutions such as hospitals and schools, though aware of the impact of the "title problem" never face its consequences in such a direct way as people who are in private practice. Explaining the issues around title can be embarrassing for the P.A. but from the point of view of the clients it can become a barrier to their accessing support.

For most of my professional life I have seen myself as an advocate for clients but also as an advocate for professionals who deliver psychological services. I helped unionize my workplace. I remain involved with my local bargaining unit but in the past I devoted an untold number of week-ends to meetings in Toronto working on various committees to ensure that the concerns of professionals were heard in a large teachers' union.

I was elected to the Board of the Ontario Association of Psychological Associates last year and have been an active Executive member since that time. I was privileged to speak on behalf of P.A.'s at the HPRAC consultations on Psychotherapy. I regretted not being able to attend and speak on the Title issue as well but I was able to provide input into the OAPA position paper on Title which was nearly as good. I was reluctant to put my name forward for the vacant Council ex-officio position this year because of my commitment to OAPA. However, I have been urged to run for the Council and am doing so with the understanding that I will have to resign from the Board of OAPA should I be elected.

From a personal point of view, I have been married for 33 years to the same man and we have 4 adult children. We live in rural Eastern Ontario. I enjoy reading and gardening as well as crafts. I am committed to life long learning and am almost always taking a new course or exploring some new test, author or idea.

I have considerable professional experience and from my union work I have a broad perspective on the practice of school psychology province-wide. Because I have worked on innumerable committees, I am realistic about what a single individual can accomplish. Equally, I am aware that being pleasant but patient and persistent is almost always effective in having issues addressed. If elected, I commit myself to keeping the lines of communication among P.A.'s open and to make sure all are aware of the Council's deliberations. I will work hard to represent members within the context of the College mandate to protect the public.
